PROFILE

Frontend software developer specializing in building modern, high-performance web interfaces using **Next.js** and **React**. Focused on creating intuitive, scalable, and visually polished user experiences. Passionate about continuous learning, collaboration, and solving complex UI/UX challenges across web and mobile platforms.

EDUCATION

Ebla Private University, *Bachelor's Degree in Information Technology and Communications Engineering* 09/2019 – 09/2025 | Aleppo, Syria

Focused on software engineering, computer networks, web technologies, and communication systems. Developed strong skills in programming, database management, and full-stack application development through academic projects and practical training.

PROFESSIONAL EXPERIENCE

React Native Developer, *Radar*  01/2025 – 05/2025 | Aleppo, Syria

Developed responsive and user-friendly web interfaces using React, Next.js, and modern frontend technologies. Collaborated with backend teams to integrate APIs and optimize performance. Implemented reusable UI components, state management, and multi-language support. Focused on delivering clean code, high performance, and pixel-perfect user experiences.

COURSES

React Native Development Training Program, *Radar Company* 01/2025 – 11/2025 | Syria

Successfully completed an intensive **React Native** development training program focused on building high-quality, cross-platform mobile applications. Gained hands-on experience with **React Native**, **JavaScript/TypeScript**, and modern mobile UI patterns, including component-based architecture, state management, navigation, form handling, API integration, and offline support. Worked on real-world projects emphasizing performance optimization, responsive layouts, clean code, and best practices in mobile UX/UI. Demonstrated strong problem-solving skills, attention to detail, and the ability to translate designs and requirements into reliable, user-friendly mobile applications for both **iOS** and **Android**.

SKILLS

Mobile Development — Proficient

- React Native, Expo
- Mobile UI Components & Navigation
- Push Notifications & Firebase Cloud Messaging (FCM)

Leadership & Soft Skills — Expert

- Leadership & Team Management (Founder of CodaRise)
- Strategic Planning & Decision Making
- Client Communication & Project Coordination
- Problem Solving & Innovation
- Agile Development & Collaboration

Tools & Platforms — Expert

- Git & GitHub, Docker, Vercel, Firebase
- CI/CD Deployment
- PM2, Nginx, Cloud Hosting (VPS – Contabo)

Other Technical Skills — Proficient

- AI Integration in Applications
- Firebase Cloud Messaging (FCM)
- Google & Apple OAuth Integration
- API Security & Protection

LANGUAGES

Arabic — Native/Bilingual
Native Speaker

English — Fluent
B2 Level (Upper Intermediate)

CERTIFICATES

Driver's License (Category: B)

PROJECTS

Cook Platform, *Full-Stack & Mobile Application*

06/2025 – 07/2025

A comprehensive cooking and educational platform that allows users to create, share, and enroll in cooking courses with real-time chat, rating system, expert verification, and offline video downloads. Built using Next.js, NestJS, React Native, PostgreSQL, and Firebase Cloud Messaging.

Startup Funding Platform, *Modern frontend platform for showcasing and funding innovative startups*

07/2025 – 11/2025

A comprehensive **legal management and consultation mobile application** that allows clients to browse legal services, submit cases, and communicate with lawyers through a modern, intuitive mobile interface. The application features real-time chat, case status tracking, verified lawyer profiles, document management, and push notification alerts. Built using **React Native**, **NestJS**, and **MongoDB**, with **Firebase Cloud Messaging** for notifications, focusing on performance, scalability, security, data privacy, accessibility, and a seamless end-to-end mobile user experience.
